PHENOM 100: READY TO FLY

Embraer's Phenom 100 delivers modern Garmin G1000 NXi avionics, practical cabin options, and a refined five-passenger interior finished in tan leather with dark wood and nickel accents.

Its pure white exterior with gold and black stripes completes a capable, executive-ready platform for efficient private travel.

MORE CAPABILITY, BUILT IN

Synthetic Vision, GWX 75 weather radar, dual transponders, dual DME, FliteCharts, and TCAS I expand capability. A belted lavatory with rigid door, cockpit flood lights, premium passenger door, and cabin USB ports add everyday utility.

SEE MORE. FLY SMARTER.

The G1000 NXi "Prodigy" suite integrates three displays, dual AHRS, dual air data computers, dual GPS/FMS, and a three-axis autopilot with dual flight directors. XM weather, TAWS-B, Mode-S, EICAS, and a cockpit voice and data recorder sharpen situational awareness and reduce pilot workload.

CABIN COMFORT, REFINED

Tan leather, dark wood, and nickel details finish the five-passenger cabin and belted lavatory. The layout delivers a clean, executive environment for both short hops and longer missions.

Specifications are preliminary and subject to verification upon inspection.
Aircraft may be removed from the market at owner's discretion.
